

A warm Christmas for Adriana!

Adriana's family of 5 is one of the few families in Tarlungeni who still needs our urgent support. They have been living in one small shack, damp and cold with no heating, electricity or water supply.

This is Adriana's house. The reason we couldn't help their family until now was because of lack of space. Over the last few years they were hoping to receive a plot of land from the council where they could relocate. It hasn't happened!

Their home grew more and more derelict, to the point where the situation became critical. Last month, together with our volunteers from Bolton, we decided to demolish the shack and start building the foundation for a new home.

The old shack is now demolished and the new foundation in place. Still have some good weather and we could finish the house in time for Adriana's family to move in before the cold weather sets in. Let's help provide a warm Christmas for Adriana and her children this winter!

Donate for Adriana

Your kind donations will provide the bricks for the walls, timber and metal sheets for the roof, window and door, ceiling and insulation, heater/cooker and chimney, paint for the walls and some basic furniture for the family to settle in.

Thank
you
